

How to Use This Chart

KS2 SATs Practice Papers — Progress Chart

	Set A		Set B	
Maths	Mark	Areas to work on	Mark	Areas to work on
Paper 1 — Arithmetic	23 / 40	fractions showing working clearly	30 / 40	estimating using negative numbers
Paper 2 — Reasoning	27 / 35			
Paper 3 — Reasoning	24 / 35			
Total for Maths: Papers 1, 2 and 3	74 / 110		87 / 110	
English				
Reading	/ 50	using apostrophes reading questions carefully	/ 50	
Grammar, Punctuation and Spelling Paper 1 — Questions	39 / 50		/ 50	
Grammar, Punctuation and Spelling Paper 2 — Spelling	/ 20		/ 20	
Total for GP&S: Papers 1 and 2	/ 70		/ 70	

Record your child's score for each practice paper they complete. This will help them to see how their scores develop as they prepare for the SATs.

The Answer Booklets explain how to use these totals to work out if your child is on track to reach the 'expected standard'.

Once your child has completed a paper, go through their answers together and discuss what they found easy or difficult, and where they made avoidable mistakes. If you identify specific areas they need to work on, jot them down in this column.

Use CGP's free topic checklists to help your child identify topics within Maths and English that they particularly need to focus on.

As well as specific topics, encourage your child to think about skills they might need to work on, such as reading questions carefully, showing their working or managing their time during the test.
