

How to Use This Chart

KS1 SATs Practice Papers — Progress Chart				
	Set A		Set B	
Maths	Mark	Areas to work on	Mark	Areas to work on
Paper 1 — Arithmetic	15 / 25	multiplication showing working clearly	21 / 25	fractions solving problems with money
Paper 2 — Reasoning	27 / 35		29 / 35	
Total for Maths: Papers 1 and 2	42 / 60		50 / 60	
English				
Reading Paper 1	/ 20	using apostrophes reading questions carefully	/ 20	
Reading Paper 2	/ 20		/ 20	
Total for Reading: Papers 1 and 2	/ 40		/ 40	
Grammar, Punctuation and Spelling Paper 1 — Spelling	/ 20		/ 20	
Grammar, Punctuation and Spelling Paper 2 — Questions	15 / 20		/ 20	
Total for GP&S: Papers 1 and 2	/ 40		/ 40	

Record your child's score for each practice paper they complete. This will help them to see how their scores develop as they prepare for the SATs.

Once your child has completed a paper, go through their answers together and discuss what they found easy or difficult, and where they made avoidable mistakes. If you identify specific areas they need to work on, jot them down in this column.

Use CGP's free topic checklists to help your child identify topics within Maths and English that they particularly need to focus on.

The Answer Booklets explain how to use these totals to work out if your child is on track to reach the 'expected standard'.

As well as specific topics, encourage your child to think about skills they might need to work on, such as reading questions carefully, showing their working or managing their time during the test.
